### DETAILED ACTION

This application is in condition for allowance except for the following formal matters:

#### ***Claim Objections***

Claim 1 is objected to because of the following informalities:

a) The limitation at line 5 "filter body for connection be a common power source" should be "filter body for connection to a common power source."

b) the limitation starting at line 7 "the power source protection and filter body . . . or warning alarm is produced" is repeated at lines 15- 22.

c) The limitation at line 31 "with a main, a secondary output socket" should be "with a main output socket and a secondary output socket."

d) The limitation at line 13 of "the input voltage, current value are monitored" is ambiguous. Does the limitation mean that "the input voltage and current value are monitored and indicated?"

Appropriate correction is required.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 25 USPQ 74, 453 O.G. 213, (Comm'r Pat. 1935).

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
